Voyage to the heart of the Amazon

An exceptional trip that explores the depths of the greatest wilderness on earth

4 days @ £1,250 or 7 days @ £2,250 ex flights

The above price includes: 7 day river cruise on M/V Tucano into the Heart of the Amazon or a shorter 5 day version which captures the spirit of the Amazon by exploring dense forests and small tributaries of the Amazon. MV Tucano has air conditioned cabins with en suite facilities, and provides full board and daily guided shore excursions with English speaking guides.

M/V Tucano departs weekly from Manaus and navigates the Rio Negro exploring deep into the amazon rainforest, a UNESCO World Heritage Site. Groups are small and our guides are skilled naturalists giving the trip an expeditionary feel whilst offering maximum comfort with spacious cabins and large picture windows. M/V Tucano has observation decks where you can see the surrounding wildlife such as monkeys, macaws, caimans and pink dolphins. Sometimes we visit remote villages where life continues much the same as it has for hundreds of years and most of the trip takes place within the world's largest pristine rainforest where wildlife is still abundant. Every day is different offering a variety of activities and excursions: by launch, kayak, walks in the rainforest, fishing for piranhas, swimming or just strolling through remote and unspoilt villages. What ever activity you decide on, you can be sure to return to the comfort of the boat where a refreshing drink will be waiting for you accompanied by wonderful cuisine. M/V Tucano can also be chartered for groups of up to 8 guests and is the only vessel with solar powered refrigeration, electric motors and solar heated showers.

All tours start and finish in Manaus and we can organise accommodation at a variety of hotels before and after the cruise. Manaus was built on the success of the rubber boom in the 1870's and is home to the famous Opera House or Teatro Amazonas, reflecting the opulence of those days. Other highlights to consider include the Pantanal in Mato Grosso, a vast network of wetlands with excellent wildlife and the spectacular waterfalls of Iguacu which lie on the borders of Brazil, Argentina and Paraguay. What ever you decide to do, we can tailor make your itinerary to suit individual requirements and advise you on every aspect of your trip.
